

Contours in OpenCV

- **Contours : Getting Started**

Learn to find and draw Contours

- **Contour Features**

Learn to find different features of contours like area, perimeter, bounding rectangle etc.

- **Contour Properties**

Learn to find different properties of contours like Solidity, Mean Intensity etc.

- **Contours : More Functions**

Learn to find convexity defects, pointPolygonTest, match different shapes etc.

- **Contours Hierarchy**

Learn about Contour Hierarchy
